

Submitter: Rex Capri  
On Behalf Of: Rex and Theresa Capri  
Committee: House Committee On Revenue  
Measure, Appointment or Topic: HB3489

My wife and I are small woodland owners. Woodlands are many years of hard work with very little reward when harvested because the majority of the income goes to the logger. America and the world needs wood products. Don't try to take more of the little reward we get from our land and effort. If you want more revenue, start harvesting state and federal forests. Vote NO on this bill.

Sincerely,  
Rex and Theresa Capri
