

Submitter: Janet Haddock

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3489

We are opposed to HB3489.

Oregon Forest Resources Institute is a valuable resource that helps meet the objectives of equipping people in all walks of life with information on how to efficiently and effectively care for our Oregon forests. Eliminating it is a large step backward in achieving healthy Oregon forests.

Additionally, all Oregon tree certification programs should get equal tax breaks. All should be treated fairly across the board.

We urge you to kill this bill. We all want healthy and productive forests in Oregon. Let's rethink this and come up with better ways to achieve those goals.

Thank you for your time!
