

Submitter: Ann Pistacchi-Peck  
On Behalf Of:  
Committee: Joint Committee On Ways and Means  
Measure, Appointment or Topic: HB5006  
Members of the Joint Committee on Ways and Means:

I am writing to urge your support of HB 2979, which provides funding for Oregon's farmers, ranchers, food hubs, and farmers markets.

Oregon's small farms and ranches, and the outlets where they market their products, are increasingly threatened by extreme weather events and wildfires. Supporting the Food Systems Resilience Programs in HB 2979 means investing in climate resilience, disaster preparedness, conservation and stewardship, rural economic development, and thriving small businesses all over our state. These investments benefit not just farmers and local food outlets but entire communities by fostering access to healthy, local food, creating hubs for community engagement and expanding nutrition incentive programs.

The climate resiliency grant the Bend Farmers Market received in 2025. offers critical support to help local growers adapt to changing environmental conditions. By funding infrastructure improvements like shade structures, cooling systems, drinking water systems and masks for smokey days the program strengthens the market's ability to operate and withstand extreme weather events. The grant also allows us to provide climate resiliency education programming to help farmers and ranchers adapt their practices for long-term sustainability, Altogether, these investments strengthen the market's stability, protect local food systems, and build a more resilient community.

HB 2979 passed unanimously out of the House Committee on Ag, Land Use, Natural Resources, and Water with over 200 submissions of written testimony in support, including a letter signed by 248 farms, food hubs, farmers markets, community organizations and others.

Continuity of this funding is critical! When funding is available one year and not the next, interest in these programs decreases, and it becomes difficult for farmers and community organizations to anticipate what will be available and take best advantage of it.

I urge you to fund HB 2979.

Thank you.
