Measure, Appointment or Topic: HB5006

I urge you to fund HB 2979.

I am writing as a healthcare professional (MD) who knows in values how is sustainable, locally based, Brazilian food system is so important to our communities health and well-being.

This bill will help maintain and grow a small farms and marketing (farmers market, especially) system, which can do much for our health and social well-being.

Thank you for your support.
