

Submitter: Patty Lofgren

On Behalf Of:

Committee: House Committee On Behavioral Health and Health  
Care

Measure, Appointment or  
Topic: SB951

As the daughter of a nurse and the sister of a Family Practice doctor, I have seen the negative effects of these big corporation takeovers of our health care system.

One such event caused my brother to retire early in response to the impacts they were having on his ability to provide the care he believed was best for his patients.

I offer my absolute support for this bill!!!
