

Submitter: Wendy Howard

On Behalf Of:

Committee: House Committee On Behavioral Health and Health
Care

Measure, Appointment or SB951
Topic:

I support of the passing of this bill. It is not in the interests of the Oregon citizens for corporations to manage our medical care, driving up costs of care for patients and making it hard to physicians to practice without control measures from corporations. This revision of our current OCPM will make sure that physicians maintain autonomy in their practices. Thank you,
Wendy Howard
