RE: SB 5525, Higher Education Coordinating Commission – Public Universities

Dear Co-Chairs Sollman and Ruiz and the members of the Committee,

This letter is in euthanasic support for the Advanced Technology & Manufacturing Institute (ATAMI) located on the Hewlett-Packard (HP) Campus in Corvallis, Oregon. This facility is overseen by the Research Office at Oregon State University (OSU). ATAMI is a unique entity in the state of Oregon that brings together academic researchers seeking societal impacts with physical science-focused, high growth companies in a unique 80,000 sq. ft. facility. *This one-of-a-kind facility is one of the driving reasons that our company (Valliscor, LLC) is located in Corvallis, Oregon.*

This facility nucleates both technologies and people into a single facility – creating an ecosystem to support physical science-focused, high growth companies that drives good paying jobs for OSU graduates and the local community. The management team at ATAMI does an outstanding job at focusing on their mission to support the economic impact of Oregon-based technologies for the betterment of the people of Oregon.

We are proud to call ATAMI our home!

Sincerely,

Rich G. Carter, Ph. D.
