Committee:

House Committee On Rules

Measure, Appointment or Topic:

HB3838

I encourage those voting to ignore their party lines and whoever financed their campaigns. This is about what actually makes sense for your constituents, many being the most vulnerable amongst us. HB 3838 will cause more expense to already strained resources while doing nothing to actually improve the system. There are already guidelines in place that work which are more appropriate to individual needs, rather than this "blanket fix" that serves no one well...except for the union trying to get it through. Please vote HB 3838 down and move on to support the bills that actually do work for the entities directly affected.
