

Submitter:	Travis Darney
On Behalf Of:	Side A Brewing
Committee:	House Committee On Revenue
Measure, Appointment or Topic:	HB3940

I strongly oppose this measure. Reallocation of current funds would cover the necessity for further fire remediation. Further taxation of our small businesses will only further the stress we're already feeling, and lessen already struggling sales. Either our business will have to absorb this cost on each can sold, or our customers will. Either way the result will be less business overall, and the entire point of this measure is lost.
