

Submitter: Cory Morgan

On Behalf Of:

Committee: House Committee On Behavioral Health and Health
Care

Measure, Appointment or
Topic: SB951

I support SB 951. I am a husband and father of two, and believe that physicians, working directly with individuals, are best equipped to provide the best care possible. It is inconceivable to me that corporations, or individuals in those corporations, could have a better sense of what a patient needs without ever having met with them, talked with them, reviewed their history in detail, and fully understood the entire context of each situation.
