Senate Committee On Judiciary

Measure, Appointment or Topic:

HB2299

Dear Committee on Judiciary,

I strongly urge you to support HB2299. And to those opposing this bill saying these images don't hurt anyone, they are wrong. Everyone gets hurt.

Many studies have shown porn is more addictive than cocaine or heron as well as an accelerating addiction. The mind gets bored and has to go to the next level until it reaches rape and murder. AI can victimize innocent people with deceiving photos. Non-consensual sharing of intimate images is used to manipulate, intimidate, blackmail, and harass victims in addition to extorting for financial gain. Every Oregonian will lose if we accept this type of use of AI in our culture. Please provide safety for all by passing this bill.
