Dear Senate President Wagner; Speaker Fahey; Leaders Bonham, Bowman, Drazan and Jama;
Ways & Means & Co-Chairs Lieber and Sanchez; and Capital Construction Co-Chairs Girod and
Nosse:

I am a current student at OSU-Cascades, studying Computer Science I write to urge your support for Oregon State University-Cascades' request for \$42 million in state funding for land reclamation and the completion of the Student Health and Recreation Center. That \$42M will match \$22M from the university and \$20M paid by student fees. Students feel so passionately about the need for the facility that they voted to approve those fees (and have been paying into the fund) since 2017. This project is pivotal not only for the success of OSU-Cascades but for the continued growth of our region's economy and workforce.

I am originally from Beaverton, a city just outside of Portland. I came to OSU-Cascades for its proximity to the outdoors and its small student body, but I stayed for its tightknit community. After almost two years on this campus, I have felt more connected to the faculty and students than I ever did at my high school. The people on this campus care greatly for students and I have been able to get involved with the student government, make connections with faculty members, and form friendships that will last a lifetime.

OSU-Cascades is already providing an invaluable education, but without a proper health and recreation facility, many of us are left without access to the wellness resources that are essential for our academic progress. Studies show that having access to physical and mental health services

significantly improves retention, graduation rates, and GPAs. The new center will make a huge difference in ensuring that we have the support we need to succeed.

Additionally, the university's goal of increasing enrollment to 2,200 students by 2030 will require more space, housing, and resources. The land remediation efforts supported by this funding are crucial to the long-term success of OSU-Cascades and the broader Central Oregon community. This is an early and necessary step in building the infrastructure that will educate future generations of Central Oregonians and contribute to a well-prepared workforce for our region. The land reclamation work will provide the necessary infrastructure to meet that demand, including housing for students who are facing rising costs in Central Oregon.

I urge you to support this funding request and ensure that future students like me have the resources and opportunities we need to succeed.

Sincerely,
Alexander Sahlstrom
