Resources, and Water

Measure, Appointment or SB845
Topic:

I oppose this bill. I belong to a small water utility and would not like the process you have outlined should we fall into failure. We don't plan on failure but according to your plan we could head down a road of unclear expenses without any help from from the Oregon Utility Commission. Instead of helping they would "sell" our system to another water utility. It gives the Oregon Utility Commission too much power and power to intervene where it is NOT wanted. Always Bigger Government is the answer, well I disagree.
