

Submitter:

Joanna Ramlow

On Behalf Of:

Committee:

House Committee On Education

Measure, Appointment or Topic:

SB1098

I oppose SB1098. As a parent and a voter, I elect school board members to represent local citizens in our schools and to determine what our children are to be learning, from what curriculum, and what books are appropriate for the children. The state should not be making such decisions for community members and their children and force books and curriculum on citizens that the state deems acceptable and which may not align with the local citizens' belief systems. This government overreach is fascist and has no place in a democratic society. I urge lawmakers to oppose SB1098.
