

Submitter: Donna Bleiler
On Behalf Of:
Committee: House Committee On Education
Measure, Appointment or Topic: SB1098

I VERY STRONGLY OPPOSE SB 1098 AS IMMORAL AND UNETHICAL AND ILLEGAL

This will legalize porn in school literature that is otherwise illegal. It is child abuse and degrades the mind of our children. Studies show that pornography is the most addictive substance, even worse than cocaine. That's because it is never satisfied, and always wants to go to the next level until it reaches rape and murder. The younger the exposure, the higher the risk. Study shows 86% of boys and 51% of girls are exposed to porn before 18 and some at 8 years old. Viewing porn alters the development of dopamine centers shifting and changing their norms and standards. This affects their adult life depriving them of intimacy reducing their ability to be aroused by their spouse robbing them of a satisfying marriage and family life.

These legislators sponsoring this bill are playing political suicide with your kids. Placing treme emergency clause - they are playing evil gods trying to take away your children into their dark world. They want to blame guns on increases in suicides in you people, when they are to blame for exposing them to what has been proven to be improper and destructive to them.

This will increase homeschooling and make public schools a den for the perverted.

The State Library reports there were 20 challenges to literature across the state but many went unreported and solved internally. A clear pattern has emerged in recent OIFC reports: incidents and challenged materials are disproportionately about, by, or center around the stories of individuals who belong to an underrepresented protected class under ORS 659.850. In 2023-24, 87% of the items challenged told the stories of one or more underrepresented groups. 66% of challenged materials focused on 2SLGBTQIA+ people, while 22% were centered on Black, Indigenous, or people of color. This bill seems to be a challenge to our discrimination statues making them into a perverted class, and how it has conditioned us, forced us, to be tolerant of immorality. Placing temptations in school libraries is child abuse and a crime if anyone on the street were to show these books to a child, and they don't want any challenges from voters to override their illegal, unethical, immoral actions.
