HB3838

I strongly oppose this bill. I'm a small adult care home owner and if this bill. We are already overseeing by the county, state, ombudsman. We don't need extra people to come into our homes, taking our valuable time away from the elderly and our job so they can check on things they have no clue on so we have to explain how this business works and how my caregivers, resident managers are paid and how throughout trained they are. You cannot compare us to big facilities where caregivers complain that they are not trained and overworked. They can request more training and work less hours. It's each individual choice to do this job.

Our caregiver are trained by the county's and state certified professionals and are much better paid than the state pays their caregivers. In the name of justice please stop this bill.

Thank you!
