

Submitter:

Carol Fagan

On Behalf Of:

Committee:

Senate Committee On Education

Measure, Appointment or Topic:

HB3624

To whom it may concern, please do not allow this bill to pass as it would greatly impact my child. She has extreme phobias and has a very hard time being around people. If she had to be subjected to taking a test in a public setting this would vastly impact her. I'm sure there are many people who have a special needs child that they homeschool, who would be impacted greatly if this was to pass. Thank you for your time.
