

Submitter: Elaine Lavington

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: SB1098

I oppose SB 1098. Schools and parents should be able to decide if some books should not be in their school libraries. Not all books are suitable for all ages. Parents should be able to

decide what they want their children to read about sexuality, transgender topics or homosexuality. The School Board should be able to way decisions in what books should be in the library.

Thank you.

Elaine Lavington
