

Submitter: Elaine Lavington

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: SB1098

Where is the common sense on this bill. We can't continue to push perversion in our schools and expect that people will remain ok with it. It is astonishing what our schools have become. We need school choice in Oregon so if public schools want to provide pornography in schools, we have a choice to put our children in private schools that do not allow tis filth.
