

Submitter: Eleanor Wynn

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: SB1098

It is oppressive and anti democratic to prevent access to information. For schools there are some common sense limits, but most books being banned are for political and culture war reasons. This is unacceptable. Tolerance and acceptance of others arises from understanding their situations and avoiding stereotyping to diminish them. Reading is a path to this understanding. It should not be censored.
