Measure, Appointment or Topic:	HB3838

As an adult care home provider, I STRONGLY oppose HB3838. As an adult care home, we provide an environment for residents to feel like home and not in a hospital setting. This will put a lot of burden on care homes and it will result in closures of homes. The pay we receive cannot withstand these pay standards and benefits. There is already a shortage of care homes in our area, and although this is something we love doing, it would not make business sense to open a care home or continue running one, as it will put us out of business. This will limit the options that residents have to only bigger facilities that are not as home like. Please keep our care homes just that, a home like setting and oppose HB3838

Thank you,
Ronald Wagner
