

Submitter: Darrin Davis

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: SB1098

To whom it may concern. I, Darrin Davis, do not support this measure. I believe it is an infringement on our freedoms. I do not believe the state should be in control of what my, or any local school board, should or shouldn't be required, or not allow when it comes to text books, reading material, or any such library books, etc. If this measure is to take place, more like such will take place.

Thank you,

Darrin R. Davis Jr.
