HB3838

Small care homes play such an important role in providing high quality and personalized care to seniors and those with disabilities. The elderly deserve to receive quality care in an environment that feels like home.

This new bill threatens the care being provided by increasing regulations and financial strain, and limiting who can be served in our homes. It could cause these small homes to be forced to shut down. This bill does NOT take into consideration the very low Medicaid rates, Please consider opposing this bill and consider the long-term consequences for those we serve.

I oppose HB 3838
