Committee:	House Committee On Education
Measure, Appointment or Topic:	SB1098

If you can't read or show the pornography (School book)on the floor of the state legislature why allow it in schools. Some group is really sick to allow this bill to go through.

This just shows how bad the democrat / communist party has gone. My family and I are sad and offended by how far that party has gone. Honorable people should not be in that party. If a person is still part of the democrat/ communist party they are despicable . And useful idiots.
