Re: SB 777

Dear members , I am writing today to express my opposition to SB 777. The bill as presented should not proceed out of committee. It is flawed and inappropriate to (x 5) compensation for loss of cattle beyond the market value. Which has for years been the reasonable economic appropriation. The wolves have been maligned to a point of dangerous tipping point. Since their reintroduction, there is demonstrable evidence that the health of animal herds and flora have improved. I respectfully request that this bill not proceed as written.
