Committee:

Senate Committee On Education

Measure, Appointment or Topic:

HB3624

A someone who was homeschooled my entire life, and who also chose to homeschool my son, I STRONGLY OPPOSE this bill.

Having anyone besides myself pay for my child's education needs is exactly what we don't want. Freedom is the reason we homeschool. This would be a gross overreach and damaging to homeschoolers.

Please continue to give us the freedom of choice, and let us decide when/where/how we test our students. The money could be used elsewhere but please, don't use the money to control homeschool children.
