

Submitter: Marlene Acker

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: SB1098

I oppose this bill.

It will legalize pornography in school literature that is otherwise illegal.

This bill plays political suicide with children lives.

They want to blame guns for an increase in suicides in young people, but this exposes them to what has been proven to be improper and destructive life altering behavior.

This will be another reason to homeschool and make public schools less desirable.
