Committee: Senate Committee On Finance and Revenue
Measure, Appointment or Topic: HB3190

Historic Preservation of our shared cultural heritage is foundational to our state. Having participated in many of these projects over 25 years of practice, I can tell you that these are the most complex and challenging projects you can take on. Financially, they are difficult to achieve, yet they bring so many benefits to our communities. Beyond civic pride and lessons of the past, they also are hugely beneficial in terms of local labor, conservation of resources, and sustainability goals. It is in the public interest to support and provide incentives where possible to encourage these projects to happen.

I support HB 3190A and urge your support. Please pass this bill.

Thank you for your time and consideration,
