Measure, Appointment or Topic: SB1099

Dear House Committee on Early Childhood and Human Services,

As I read this, I can't see a reason not to support it. Generally if a church has space for pre-school age kids on Sundays, it would have space for pre-school and childcare schools during the week. The space could be utilized. I understand that the opposition might say the infrastructure could be a problem, but I doubt it. If the church can hold that many during school, it can hold that many on Sundays. Let's remove the obstacles. I support this bill.
