

Submitter: Michele McKay

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: HB3932

I'm writing in strong support of HB 3932.

Please end beaver trapping and conserve beavers on public land in Oregon!
When beavers thrive, they benefit a host of other species, as well as human
communities.

Beavers improve stream health, increase climate resilience and promote wildfire
resistance.

Beavers are incredibly effective at improving water quality on rivers and streams that
are contending with elevated water temperatures and high levels of sedimentation,
toxins or other pollutants.

Thank you,
Michele McKay
