

Submitter: Gena Goodman-Campbell
On Behalf Of:
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: HB3932

I am writing to express my enthusiastic support for HB 3932, which will allow beavers to conduct their important ecosystem engineering work in peace in the places where it is needed most. Streams with impaired water quality can benefit greatly from beavers, and when beavers are allowed to thrive in these areas, habitat restoration work can be conducted that will further improve habitat quality for fish and many other wildlife species. I've seen firsthand the positive impact that beavers can make towards improving the health of streams in Oregon, and have participated in several restoration projects that aim to support beavers and their habitat. Please join me in supporting this common sense bill!
