

Submitter:	Ian Reclusado
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	HB3932

I think we need to be a lot more respectful of nature's home grown way of protecting and supporting itself. Humans are meant to be stewards of the lands we live in and not simply take from them because we can. Laws that support beavers in places where beavers support the wider environment are exactly the kinds of laws we need right now.
