Wildfire

Measure, Appointment or Topic: HB3932

I strongly support HB 3932 allowing the unhindered freedom of beaver populations along rivers and streams that are contending with elevated water temperatures and high levels of sedimentation, toxins or other pollutants. The elimination of trapping is a sensible measure because when beavers thrive, they benefit a host of other species, as well as human communities. Beavers improve stream health, increase climate resilience and promote wildfire resistance. Please support HB 3932!
