

Submitter: Kailee Menlow

On Behalf Of:

Committee: Senate Committee On Natural Resources and  
Wildfire

Measure, Appointment or  
Topic: HB3932

Beavers are a keystone species and are crucial to healthy landscapes. Especially since they are the mascot of our state, we should be doing everything we can to protect and increase existing beaver populations. This will benefit us economically through tourism and ecologically through the construction of healthy riparian areas. Many other species depend on the beaver.
