

Submitter: Alan Winter

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: HB3932

There's a parallel between protecting our national bird (the Bald Eagle was once endangered) and our state animal (the beaver). We succeeded in saving the Eagle from extinction and can do the same for the Beaver! I am planning on participating in an ONDA work party in Central Oregon that is part of a restoration project to give the native beaver more food sources so it can survive and build dams that will help it and the land grow and prosper!
