

Submitter:	Lori Anderson
On Behalf Of:	Homeschooling Parents
Committee:	Senate Committee On Education
Measure, Appointment or Topic:	HB3624

I strongly oppose HB 3624. When I chose to homeschool, I did so I could choose how and where my children would learn. I value choosing a tester and location for the testing we do, and am willing to pay for that. Having the government provide testing opens the door to more government regulation. Government funds are never free because they cost taxpayers and come with stipulations. Please vote no on HB 3624.
