

Submitter:	Allegra Helfenstein
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	HB3932

Beavers perform extraordinary engineering activities that help improve water quality, protect against drought and wildfires, and support diversity of plant and other animal species, and other activities beneficial to humans and our environment; all done more quickly and cost-effectively than human engineers can accomplish. Please protect the beavers on public lands and help them continue to work their magic for us and our state.
