

Submitter:

James Marquard

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB3940

We are writing to urge your opposition to HB3940A. Leave the Bottle Bill - as is - to continue its' role in a national successful program. We volunteer in our neighborhood each year, with SOLVE to pick up/clean up roadside trash. We see, in our small sampling of local efforts, how beneficial the existing Bottle Bill is. Fewer cans & bottles tells us that, as the saying goes, don't change something that works.

Yes, Climate Crisis is changing wildfire defense. It is worsening and, as with many things, making it more costly. The answer is complex and demands addressing things more comprehensively. This is not the area to try to offer our thoughts regarding this.

So, with this said, we urge opposition to HB3940A.

Thank you,
James Marquard
