

Submitter: Richard Cerri

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: HB3932

I support HB 3932 to protect beavers on said designation of habitat. The benefits- natural benefits- they build and upkeep are a boon to watersheds and woodlands. They are amazingly effective and efficient in bringing back parched, destroyed ecosystems - for both flora and fauna. Also worth citing is that the results of their work help make that environment more resilient and capable to stop the spread of wildfires.

I urge The State of Oregon to adopt HB 3932.
