

Submitter: Cheryl Woodring

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3940

No more taxation to try and correct poor money management. We the people would like to see an itemized breakdown of how our millions of dollars were spent. Money earmarked for wildfire protection was spent where, on a failed wildfire map? Our forests need to be managed: allowing logging will correct many issues. You should start there not in our pockets again.
