

Submitter:	Anne Ryland P.A.
On Behalf Of:	Self
Committee:	House Committee On Behavioral Health and Health Care
Measure, Appointment or Topic:	SB951

As a primary care provider for 35 years I strongly urge the committee to support this bill. It is imperative that healthcare is based on the ethics of "First Do NO Harm" directed by medical providers who are trained to care for patients. When the goal of an organization shifts from direct healthcare to profit ..the true nature of service for the patient is Lost. This bill provides the parameters to work with the organizations that purchase healthcare entities so that the purpose remains healthcare versus solely profit.
