Measure, Appointment or Topic: HB3224

I oppose this Bill, please vote no. Children, seniors or people with disabilities are not the same. A one size fits all solution would enable issues to fall through the cracks. Do not try to streamline or modernize the process just because you can. If you want to update background checks to ensure they are as close to fail safe as possible, review background checks for each area individually to keep people safe. Don't create another cumbersome and ineffective one size fits all solution. Oppose. Keep our most fragile people safe.
