

Submitter: Sue Leonetti

On Behalf Of:

Committee: Senate Committee On Natural Resources and  
Wildfire

Measure, Appointment or Topic: HB3932

I fully support HB 3932 which prohibits beaver trapping on certain classified waters or watersheds. It is now well known and documented that beavers and their natural activities create and promote positive changes in water quality, native fish populations, and vegetation regrowth preventing stream erosion.

Preserving and encouraging healthy beaver populations is a definite win for natural environments.

Thank You
