

Submitter: Susan LaTour

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: HB3932

Beavers are create wetlands that help protect wildlife, create oases that withstand wildfires, act as carbon sinks, and provide seed banks to regrown areas that have burned. They reproduce and send more little engineers out to do the same job elsewhere. The cost? Zero. Find any human made intervention that can do this for the same price.
