SB548

I am a survivor of child marriage. I was married a month after I turned 15. I faced many challenges that most children that age couldn't even imagine before I could even legally drive. My case should have been considered a felony sex crime but instead was covered up by marriage. Even 17 is too young to support yourself, you have to rely on others just to have somewhere to live. Save our children!

Please end this,

From a survivor.
