Measure, Appointment or Topic:

HB3624

I oppose this bill. It is unnecessary added expense to school districts already struggling with budgets. As a homeschooler i have had no problem affording or finding places to get my students tested per state requirements. I would not want to add totally unesscesqary burden to school districts to accommodate us when we do not need or request it as homeschooling parents. Please consider removing homeschoolers from this bill's verbiage.
