The Bottle Bill serves a purpose. Please don't mess with it. If you need money for wildfires, eliminate the kicker law. Use the surplus to fund fire fighting. I'm 76 years old, a fifth generation native Oregonian, and I've never understood the need to have my tax money returned to me when it could be used as a rainy day fund or way to pay for new and needed programs. I don't want \$28 returned to me so I can buy a pizza at Abby's, especially if that money will help solve another problem.
