

Submitter:

Commissioner David Loveall

On Behalf Of:

Committee:

House Committee On Education

Measure, Appointment or Topic:

SB1098

I strongly oppose this bill due to the inclusion of certain books deemed to "educate" kids around the queer agenda, which contain pornographic material, should not be in the school system. If the reading of portions of these books (those this bill would include) could not be read on the Senate Floor because of its indecency and graphic nature, then those books that violate our own laws designed for mature audiences only, should not be allowed free access to immature minds. Oregon leaders need to realize mature material should not be introduced before a mind can handle its contents.
