Committee: Senate Committee On Rules
Measure, Appointment or Topic: SCR32

You want to recognize a communist country who is busy about killing millions of their own people, ruling with iron fist via Communism, takes organs from live "donors" and sells them on black market???

How deplorable can you be!

We will never side with a country that murders its own citizens, and we will never agree with this sick and despicable resolution which closes it eyes to what is happening in China. If you really cared for the Chinese in this state you wouldn't "slap them in the face" with this resolution!
