

Submitter: Joanne Shipley

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3940

Please do not place a tax on bottle deposits. People use these to keep food on their tables. They use them to support non-profits.

I believe in preventing and mitigating wildfires, taking care of fire fighters, and educating the public, but this is a regressive tax on folks, and totally inappropriate.

If you want to designate a fund we can contribute to, or get a bottle drop account for firefighting, I'm sure people will support the system. Just let us know how to do it. But not this way!

Thank you for your time
Joanne Shipley
